

HHR-Exotics Warranty policy

HHR-Exotics offer a limited 3 year warranty on our workmanship and materials supplied by HHR on **repairs, rebuilds** and **upgrades**. Limitations apply to parts that are reused. New parts are warranted for 5 years.

All **New** products are fully warranted for a period of 5 years from date of purchase with the exception of driver damage due to exceeding driver parameters such as X-max, resulting in the crushing of the driver cone. (Please see sales agreement and damage waiver.)

Sales agreement and damage waiver

I, _____ do fully understand and hereby agree that before HHR-Exotics does any work on my existing speakers or that I purchase new Walsh TLS products, that the limitation of warranty or liability to HHR shall be as stated above and that I fully understand that the one condition HHR Exotics is not responsible for is the resultant damage incurred to my speakers drivers should they be overdriven by playing them TOO LOUD and exceeding the X-Max, (maximum travel) capability of the driver.

Exceeding this condition will result in irreparable damage to the metal foils that comprise the bulk of the cones construction. (please see pictures, damaged drivers) In addition, I acknowledge that this condition exists for all Known drivers, including, piston, ribbon, electrostatic and other exotics, and is not just a limitation of HHR-Exotics products.

Signed Dated.
